# Methodology for Gainful Employment

---

<b>Cohort</b>	All graduates during academic year 20XX. The numbers are duplicated; if a student graduated in two or more majors he/she will be counted in all majors.
<b>Employment Records</b>	The records were matched with TWC UI wage records and national databases including Office of Personnel Management and military records from Department of Defense. Employment was determined if the former student was found working in the 4 <sup>th</sup> quarter 20XX according to the records mentioned. For the annual wage four consecutive quarters were used, beginning with the 4 <sup>th</sup> quarter of 20XX.
<b>Enrollment Records</b>	The records were matched with public and private postsecondary enrollment records for predetermined periods of analysis. Pursuit of additional higher education was documented if the graduate was found enrolled in the fall semester 20XX
<b>CIP Areas for Enrollment</b>	Majors in which the award was granted, as defined by CIP 2010. Before 2010 the majors were defined by CIP 2000 codes. The description of codes can be found at <a href="http://www.txhighereddata.org/Interactive/CIP/">http://www.txhighereddata.org/Interactive/CIP/</a>
